CONTENTS

# The Ohio year, month by month

|    |                  |                                                                              |
|----|------------------|------------------------------------------------------------------------------|
| 1  | <b>January</b>   | January is the depth of an Ohio winter — gray, short-dayed, and cold,...     |
| 2  | <b>February</b>  | February is late winter in Ohio — still cold and often the snowiest month... |
| 3  | <b>March</b>     | March is the great thaw in Ohio — sap runs in the maples, the first...       |
| 4  | <b>April</b>     | April is peak spring in Ohio — the forest floor erupts with wildflowers,...  |
| 5  | <b>May</b>       | May is the peak of the Ohio nature year — the legendary warbler migration... |
| 6  | <b>June</b>      | June settles Ohio into early summer — the breeding birds are on nests and... |
| 7  | <b>July</b>      | July is high summer in Ohio — hot, humid days, prairies in full bloom,...    |
| 8  | <b>August</b>    | August is late summer in Ohio — the markets peak with corn, tomatoes, and... |
| 9  | <b>September</b> | September turns Ohio toward autumn — the fall bird migration crests, the...  |
| 10 | <b>October</b>   | October is peak fall in Ohio — the sugar maples, oaks, and hickories set...  |
| 11 | <b>November</b>  | November brings the bare-branch quiet of late fall to Ohio — the oaks...     |
| 12 | <b>December</b>  | December settles Ohio into winter — short, dark days, the first lasting...   |
